OBJECTIVE

I am a motivated and enthusiastic student nearing graduation, seeking an entry-level Data Analyst position to launch my career in data analysis. Through my academic projects, I have gained experience in cleaning, preprocessing, and visualizing data using Python and Excel. I am eager to apply my analytical skills and passion for data to uncover insights and support data-driven decision-making in a dynamic organization. Committed to continuous learning and growth in the field of data analytics, I have a strong desire to contribute to team success and drive impactful results.

Clustor Computing Internship Drive Analysis - Personal

📅 10/2024 - 10/2024 📍 Nagpur

- "Conducted an analysis of student enrollment data to identify trends in career preferences. Found that **'Jr. Data Analyst'** was the most popular role, driven by industry demand, while **'Jr. Software Developer'** also saw high enrollment due to its alignment with standard curricula. Additionally, I observed equal participation in **'Full Stack Developer'** and **'Machine Learning'**, likely reflecting the complexity of these fields. The analysis also highlighted a gender gap, with male students outnumbering females in technical roles, providing insights for diversity initiatives."

INTERNSHIP

Data Science Intern - Academor

📅 09/2023 - 10/2023
